

# JOHNSTON EQUIPMENT

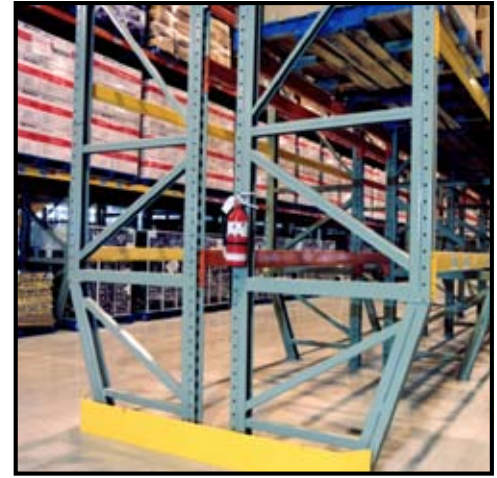

**STORAGE SOLUTIONS GROUP**

## **Selective**

Advantageous for high SKU counts, with pallet in/ pallet out or pallet in/case out movements

- Excellent selectivity - every pallet is facing
- Flexible - no specialized lift trucks required
- Maintains FIFO (First in, First out)

## **Double Deep**

Advantageous for medium SKU counts, with pallet in/ pallet out movements

- Selectivity reduced by 50% vs. Selective
- Utilizes deep reach trucks
- Modified FIFO - if rear position is emptied before replenishment

## **Drive-In**

Advantageous for low SKU counts, with high activity and pallet in/ pallet out movements

- Selectivity typically reduced by 90% or more vs. Selective
- Flexible - typically uses counter-balanced lift trucks
- LIFO (Last in, First out)

## **Very Narrow Aisle**

Advantageous for high SKU counts, with pallet in/ pallet out or pallet in/case out

- 100% pallet selectivity - can pick cases at elevated levels with order picker truck
- Utilizes specialized VNA lift trucks
- FIFO (First in, First out)

## **Push Back**

Advantageous for medium to low SKU counts, with medium to high activity and pallet in/pallet out

- Selectivity typically reduced by 60 to 75% vs. Selective
- Flexible - may use counter-balanced or reach trucks; eliminates driving into racks, required with Drive-In
- LIFO within the lane, but modified FIFO may be achieved, by sequential picking of lanes

## **Pallet Flow**

Advantageous for low SKU counts, with high activity and pallet in/ pallet out or pallet in/case out, where strict FIFO is required

- Selectivity typically reduced by 80% vs. Selective
- Flexible as to lift truck selection - eliminates driving into racks, required with Drive-In, and segregates replenishment from picking activity, eliminating lift truck contention
- FIFO (First in, First out)

# Nationwide Coverage with Local Service

## **Toronto Head Office**

5990 Avebury Road  
Mississauga, ON L5R 3R2  
Tel: (905) 712-6010 (press "5")
