

MATERIAL HANDLING

Self-Dumping Hoppers

Steel hoppers are ideal for factory waste, scrap metal, raw materials and other bulk items. Operated by fork lift, the hopper rolls forward on the forks when unlatched for easy dumping, with optional casters increasing mobility. Hoppers are available in standard 10 gauge thickness, $\frac{3}{16}$ " or $\frac{1}{4}$ " steel construction, in capacities from $\frac{1}{2}$ to 5 cubic yards. They have a blue enamel finish painted with epoxy primer.

Standard 10 Gauge Steel

Part No.	Outside Dimensions	Capacity
314825	46"L x 42 1/4"W x 29 1/8"H	1/2 cubic yard
314834	63 1/8"L x 42 1/2"W x 40 1/4"H	1 cubic yard
314831	62 3/8"L x 54 1/2"W x 43 1/4"H	1 1/2 cubic yards

Heavy Duty $\frac{3}{16}$ " Steel

Part No.	Outside Dimensions	Capacity
314826	46"L x 42 1/4"W x 29 1/8"H	1/2 cubic yard
314835	63 1/8"L x 42 1/2"W x 40 1/4"H	1 cubic yard
314838	62 5/8"L x 67"W x 43 5/8"H	2 cubic yards

Extra Heavy Duty $\frac{1}{4}$ " Steel

Part No.	Outside Dimensions	Capacity
314830	62 3/8"L x 54 1/2"W x 43 1/4"H	1 1/2 cubic yards
314836	62 5/8"L x 67"W x 43 5/8"H	2 cubic yards

Additional styles, sizes and types available.

Work Platforms

Work platforms come with numerous safety features for simple, worry-free use. They have a one-piece skid-resistant floor, 42" high handrail, high 72" back guard and lockable swing gate. This platform has pockets for fork arms and safety chains. Available with optional safety kill switch and casters.

Work Platform - No Casters

Part No.	Outside Dimensions	Capacity
319479*	36"W x 36"D x 82"H	500 lbs.
1002375*	48"W x 48"D x 82"H	500 lbs.
319442	36"W x 36"D x 72"H	800 lbs.
319447	48"W x 48"D x 72"H	800 lbs.

** Available in BC Only.*

RhinoTrac/RhinoDeck

RhinoTrac is a full width roller carton flow track system used for heavy duty applications with pallet rack beams. Constructed of heavy duty steel with a durable plated finish, and sloped tracks allow for smooth product flow. RhinoTrac includes 6", 9", 12", 15" nominal roller sizes. With 2.5" high galvanized steel side channels and 0.75" diameter aluminum diamond embossed damage resistant rollers.

RhinoDeck drops into existing carton flow systems to replace damaged or poorly functioning carton flow lanes. It reconfigures easily as SKU sizes change or the system grows. RhinoDeck has the same features as RhinoTrac but comes with smaller 1.1" high galvanized steel side channels.

Conveyors

Suited for truck loading and unloading, distribution centres, packaging, shipping and receiving, self-tracking gravity conveyors are able to adapt to many material handling tasks. With a variety of rollers, wheels, heights, widths and axles these conveyors can expand, contract and flex to suit all applications. Contact your local branch for more information.

Emergency Stop Switch

Optional safety kill switch consists of a control box for the platform, a plug-in box for the forklift and a wire that extends 6' to 20'.

Part No. 313758

The addition of this "Emergency Stop Switch" to any fork lift represents a modification to the truck itself and, in accordance with the OHS Act and Regulations, it should be done only with the written approval (and instructions) from the manufacturer of the truck.
